LIVESTOCK

Description

Works well for fence line feeding or if you need to make a feeder for square bales by connecting two 12' and two 6' panels together.

Your feed thru panels will even connect to the Sioux 12' panel bunk feeder or 5 rail Heavy Duty Panels using the pin and loop connector system.

Information

- The main frame is 2" x 16 gauge
- 16 gauge sheeting
- 1.66" x 16 gauge slant bars with pin/loop connectors
- 12' is 140 LBS.
- 6' is 74 LBS.
- 12' - 9 feeding stations
- 6' - 4 feeding stations

**POWDER
COAT PAINT**
provides an attractive,
durable finish.
