## LIVESTOCK

Sioux Steel introduces a new cart that takes the work out of removing dead livestock from your confinement. The FowlOut. The unique design of the FowlOut allows for easy loading and unloading of dead birds. Minimal effort is needed to push or pull the FowlOut through your building over any type of bedding. The FowlOut's unique body style also works well on any size of bird. The cart can be loaded with a large capacity with a number of birds saving you many trips up and down the aisles.

If you ever had to make several trips back and forth you know how tiring it can be. The FowlOut is designed to utilize the principles of balance and leverage to make your work easier. The FowlOut will save you time, money and effort in the unpleasant job of removing dead birds from your building.
