LIVESTOCK

Description

Used for hay, grain, mineral and silage. Line this panel bunk with our 12' or 6' slant bar feeder panel or 5 rail corral panel for pasture or fence line feeding. Strong and durable for your farm or feeding operation.

Hemmed feeding zone for your animals safety with drain plug on each end for easy clean-out. 16 gauge x 2" skidded legs to keep bunk off the ground so they don't freeze down in water.

Materials

- The frame is 16 gauge hot rolled tubing with 1.66" x 16 gauge slant bars.
- The pan is 16 gauge hot rolled sheet

Dimensions

- 12' long x 34" wide x 59" high
- Pan 21.25" feeding height
- Weight is 375 LBS.

**POWDER
COAT PAINT**
provides an attractive,
durable finish.
