LIVESTOCK

Description

Sioux Steel continues its tradition of innovation and top quality equipment with this Sheep and Goat Feeder. The Sheep and Goat Feeder comes with a special shield to keep hay off the wool of the sheep.

Features rounded, not sharp, corners that make this feeder very sheep friendly and "sheep safe". It is also designed to be extremely durable and take abuse from animals. Plus it is powder coated for an attractive and durable finish.

Features

- The frame is 1.25" x 16 gauge round tube.
- The rack is 1.25" x 16 gauge tube frame with 18 gauge sheeted steel shield with divider bars.
- The bars are 3/8" round with 3 1/8" spacing between each bar.
- Pan and end panels are 16 gauge sheet steel, hot rolled.
